Total Catch
Fishery 1 Catch
Fishery 2 Catch
Spawning Biomass
(sp.1) med longevity
(sp.2) short lived
A. Status−quo
B. Eliminate fishery 1
C. Fishery 1 in "offshore" only, effort changes
D. Increase fishery mesh size
E. Fishery 1 in "offshore" only
Management strategy
0. Baseline
1. Thorson effort
2. Lower productivity
3. Move "far offshore"
4. Higher growth rate
Operating model scenario
false negative, equiv
